- # ets
- ## Set theory
- ### Definition 1.1 (Tuple)
- A tuple (or sometimes **list**) is a sequence of elements, possibly with repetition. An n -tuple is of length n . A 2-tuple is called a **pair**.
- ## Morphisms
- ### Definition 1.2 (Map)
- A map (or function) f from a set A to a set B is a rule that assigns to each element a of A a unique element $f(a)$ of B .

map is

- surjective

- injective or

equivalent to being le
 bijective or a one to
